# + (Synopsis)

Kinder Class is a beginner-friendly golf learning system ideal for young kids, aged 3-6, serving as an introductory programme to golf.

**True Golf Academy (TGA)** has designed the programme with a simplified structure that aims to provide a safe and engaging way for children to learn golf. The curriculum is streamlined to introduce **kinders** to the fundamental skills in golf—full swing, pitching, chipping, putting. The programme ensures the use of age-appropriate, modified equipment and lightweight gear to facilitate lessons with **kinders**.

Kinder Class gamifies learning and builds engagement among **kinders** to encourage interest development and skill progression in a fun and exciting way. The programme is suited to any **kinders**, with or without prior experience. Lessons may be conducted indoors or outdoors. As **kinders** progress, they will begin using standard golf equipment and gain hands-on experience on the golf green. Progress will be carefully tracked by coaches, and transitions will be tailored to suit the development of each **kinder**.

Kinder Class requires the registration of a minimum of 3 pax.
